Sea Green Glass & Copper

From industrial chic to metropolitan glamour, this stunning bathroom teams neutral colours with beautiful Sea Green and glimpses of sparkling Copper. It's a winning fusion of the simplest styling and luxurious materials from the iridescent glass through to the metallic accents.

Powder Grey Glass & Chrome

A solid block of sunburst yellow is the perfect backdrop for this minimalist bathroom in subtle shades of grey. It's a bathroom to delight the senses with its beautiful sparkling surfaces in a combination of luxurious materials, including reflective glass and sensuous Coralux solid surface.

Indigo Glass & Copper

In a setting that captures the very essence of industrial chic, Indigo injects a concentrated burst of rich colour complemented by a dash of glowing Copper to contrast with the utilitarian background. Light bounces off the different surfaces highlighting the wealth of textures and finishes.

Range features

See, touch, feel, hear... Lustre engages all the senses with its powerful visual impact. Beautiful silky smooth surfaces and fabulous colour combinations create a fusion of the most luxurious materials.

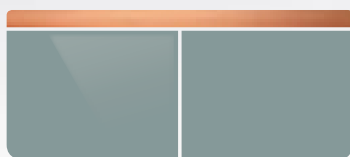

See pages 46 and 47 for our Room Motion Smart Sensor, which can be used to control a variety of lighting in your bathroom.

Coralux & Copper

Experience a world of ultimate luxury where a combination of simple styling and the most decadent materials creates a feast for the senses. Classic marble tiling is both beautiful and understated allowing the elegant washbasin unit with lustrous Copper highlights to take centre stage.

Coralux & Nickel

There's definitely a hint of retro glamour in this fabulous bathroom. Full of vibrant colour and striking geometrics, this bathroom is definitely reminiscent of a bygone decade. And with Bluetooth technology included as standard in the mirror, all that's missing are your dancing shoes!

Coralux & Indigo

Indigo - it's the new black! A fabulous fusion of intense colours and contrasting textures, this elegant bathroom takes blue, famous for its calming influence, as its theme. Mysterious Indigo, smart navy and hints of rich turquoise, it's a sophisticated combination to engage the senses.

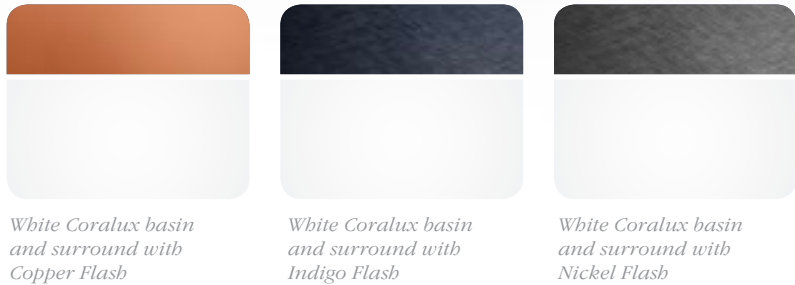

Range features

Beautiful to behold, fabulous to touch, Star proves the old adage that less is more. Simplicity meets sophistication with aesthetically pleasing curves, tactile Coralux solid surface and dramatic bursts of accent colour to make this a show-stopper in any bathroom.

See pages 46 and 47 for our Room Motion Smart Sensor, which can be used to control a variety of lighting in your bathroom.

Opula
MODULAR
RANGE

Indigo Glass & Copper

Oozing with continental style, this classy bathroom combines contemporary minimalist furniture with period features to preserve the essential grandeur of the room. Beautiful Copper notes complement the rich Indigo blue glass and the glossy, reflective surfaces against a background of multi-faceted tiles.

Opula
MODULAR
RANGE

Powder Grey Glass & Nickel

A glorious fusion of the finest materials and sharply defined shapes, this tranquil bathroom uses grey in all its subtle shades as the unifying theme. Sweeping curves combine with straight lines to create harmony in this sophisticated bathroom and the hint of soft pink adds a perfect feminine touch.

Opula
MODULAR
RANGE

Sea Green Glass & Copper

Minimalism meets designer luxury in this elegant bathroom. Inspired by boutique hotel chic, it uses the finest materials to create a beautiful fusion of colour and textures. Iridescent glass in Sea Green is accentuated by lustrous Copper highlights against a background of intricately patterned wall tiles.

Freestanding Bath Shower Mixer supplied will have two standpipes - please see page 38 for more information.

Range features

Bathroom design becomes art... Opula is all about beauty. Stunning materials and simple, pure lines create fabulous sculptural forms, oozing with decadent opulence.

See pages 46 and 47 for our Room Motion Smart Sensor, which can be used to control a variety of lighting in your bathroom.

Room Motion Smart Sensor

An inexpensive addition to any bathroom, the room motion sensor features smart technology with the added benefit of saving energy.

The sensor can operate all lighting in your bathroom and even your extractor fan, it's up to you to decide....

Set it to only activate your mood lighting when it goes dark, to avoid bright bathroom lights startling you and other family members in the middle of the night.

Discreetly styled

With a white coloured face to be as subtle as possible, the sensor can be cited on any ceiling or flat surface.

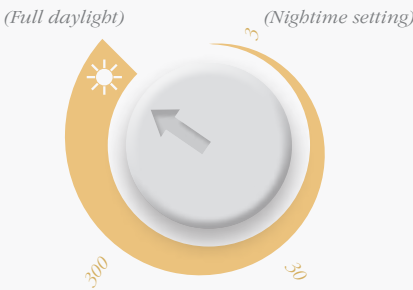

Integrated timer to select duration of illumination in your bathroom

Smaller than an average spotlight

Easy removal of the sensor face to reveal control panel

Perfect your lighting

Set the controls to suit your lifestyle, located behind the sensor's face.

Lux Adjustment

The above setting position would activate the sensor, whatever the lighting conditions.

Time Delay Adjustment

The above setting position would ensure that the lights remain on for 3 minutes after the last movement in the room is detected.

Room Motion Sensor

ACC00001

45.00

We do not recommend the room motion sensor is used to operate any items with Bluetooth connectivity
Recommended retail prices are inclusive of VAT at 20%

Lux control can be specifically set to only activate at night time, if desired

Sensor can be used to activate up to 800 watts of lighting

Choose from 10 seconds to 15 minutes time delay illumination

Smaller than an average spotlight

Operating distance of up to 6 metres

360° motion activated

Sensor can be wired to illuminate feature lighting, ceiling lights, mood lighting or all lighting in your bathroom

Control lighting in your bathroom by simply entering the room

Terms and Conditions

GENERAL

The colours and finishes in this brochure may vary from the actual products supplied, due to the reproduction of colours in printing. Colour samples of door foils, worktops and tiles are available from (1) your retailer (2) online at www.utopiagroup.com (3) customer services on 01902 406402. MFC carcass samples are not available. Samples sent to replicate units made using MFC carcass may differ slightly from the actual finish. Please ask your retailer for further information. The sizes of all products stated are all approximate, though we try to ensure that all of our sizes are represented as accurately as possible. All bathrooms should be well ventilated using suitable air extraction. Product failures caused as a result of inadequate ventilation are not covered by the terms of our guarantee and warranty. Please refer to your nearest bathroom specialist for detailed advice.

GENERAL GUARANTEE TERMS

Our general terms and guarantee terms are set out below. Please refer to individual product sections for specific conditions and guarantee terms. General guarantee:

1. Applies when:
 - 1.1 products are installed correctly in accordance with our fitting instructions and are for domestic use in a room with suitable ventilation;
 - 1.2 cisterns and taps are fitted in accordance with current local and national water regulations;
 - 1.3 furniture is not used in a wet room environment or in frequent direct contact with water;
 - 1.4 Solid Surface products have been stored correctly in accordance with our packaging instructions – specifically these must be stored flat at normal room temperature prior to installation to avoid any distortion.
2. In the event of a product failure within the guarantee period (from the date of purchase) Utopia will supply a free of charge replacement for the failed item. If that part is no longer available, a nearest equivalent replacement will be supplied.
- Our guarantee is limited to the products supplied and does not cover any associated installation costs, consequential loss or damage claims.
3. The terms of this guarantee do not affect consumer's statutory rights.
4. Any guarantee is limited to the original purchaser, is non-transferable and does not cover the purchase of ex-display items.
5. To obtain replacement parts in accordance with the terms of this guarantee, please contact the retailer who supplied the products.
6. Product guarantees may be invalidated through incorrect care and maintenance procedures. These are contained in the original product packaging and are available from our customer services department on 01902 406402.
7. All electrical installations must be carried out by a suitably qualified electrician. Your guarantee does not cover products incorrectly installed.

BATHROOM FURNITURE

Utopia furniture has been specifically designed and manufactured for performance in general bathroom use and carries a 5 year guarantee. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation and all bathrooms must be adequately ventilated using suitable extraction to avoid this. Failure to ensure adequate ventilation may invalidate your guarantee. Bathroom furniture is not specified or designed for use in areas of high or regular direct contact with water, particularly in wet room environments or where direct and/or regular water contact is prevalent. Any guarantee does not extend to this use. In respect of furniture containing electrical components, these items are unsuitable for zones 0, 1 & 2 installations. If you are in any doubt, please consult a qualified electrician.

MIRRORS AND MIRROR CABINETS

Mirror cabinets are supplied with a 2% tolerance. With proper care and maintenance your mirrors will retain a beautiful shine for years to come. The best and safest way to clean your mirror is to use only warm water or pH neutral cleaner with a soft clean cloth. Never use a dirty or gritty cloth. Never spray directly onto the mirror. Instead apply warm water or pH neutral cleaner first to the soft clean cloth. Never use an acid or alkaline based cleaner.

CORALUX SOLID SURFACE PRODUCTS

Coralux Solid Surface products carry a 5 year guarantee.

GLASS BASINS

Lustre toughened glass basins carry a 5 year guarantee against manufacturing defects and are supplied with a 2% dimensional tolerance. Installation must be in accordance with the instructions provided and may invalidate the guarantee if not complied to.

BATHS

Baths are supplied with a 30 year guarantee against manufacturing defects. All baths are supplied undrilled. All baths are manufactured and supplied using high quality 5mm cell cast acrylic, are fully reinforced with Resinite technology and are delivered with a protective film to prevent scratching. Panels and skirts are classed as furniture.

SANITARYWARE

Utopia sanitaryware carries a lifetime guarantee against manufacturing defects and are supplied with a 2% dimensional tolerance. Installation must be in accordance with the instructions provided and failure to comply with these may invalidate the guarantee. In respect of wall-hung products, recommended fixing brackets and frames must be used. These are not included with our wall-hung pans.

TOILET SEATS

A 2 year guarantee applies to all toilet seats and related components. It is the responsibility of the individual to ensure that suitable cleaning products are used. Do not use abrasive cleaning products or those cleaning products that contain chlorine or acids, as these may cause yellowing or peeling of the material. After cleaning, wipe the seat with a well wrung-out cloth. Leave the seat and lid up whenever strong cleaning products are left in the bowl of the WC pan to prevent damage from vapours.

CONCEALED CISTERNS

Concealed cisterns carry a 2 year guarantee against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided.

BRASSWARE

Brassware ranges operate at both high and low pressure up to a maximum of 3 BAR and carry a 10 year guarantee on brassware and a 5 year guarantee on cartridges against manufacturer defects. The copper plated finish is fully tested to BS EN 248 status, using copper accelerated acidic spray (CASS48H or AASS48).

TILES

Our tile collection contains both wall and floor tiles. Please note that wall tiles are unsuitable for use on floors. Due to the reproduction of colours in printing across different batches, sample tiles may differ slightly from the actual tiles supplied. In line with our re-stocking policy, a minimum of two full, unopened boxes can be returned, subject to the tiles and packaging being in resaleable condition. A 15% re-stocking charge applies.

ROOM MOTION SMART SENSOR

A 2 year guarantee is offered with the Motion Smart Sensor.

COMMERCIAL APPLICATIONS

A 12 month guarantee applies to all products fitted in a commercial environment.

OUR ENVIRONMENTAL COMMITMENT

Our manufacturing process is green at heart. Sustainability is high on our agenda and we strive to make the least environmental impact. From the wood we use, the energy we consume, to our transport logistics, we take care to ensure we operate as responsibly as possible.

The information contained in this brochure is correct at the time of print as of May 2017. However, we reserve the right to alter materials and specifications in line with our continuing programme of product and service development.
